A major problem with most idiom dictionaries is that the definitions are often too complex for individuals who have limited proficiency in English. *The Expressionary* is designed so that it can be used by individuals with limited English skills or language learning disabilities. Commonly used expressions are included that you won't find in most idiom dictionaries. This comprehensive resource is filled with idiomatic expressions, proverbs, phrasal verbs (e.g., "single out"), collocations (e.g., "let out after"), and even foreign phrases that are commonly used in English.

The use of "focus words" will help you locate phrases that contain a specific word. If you want to develop lessons for teaching expressions that contain the names of basic body parts, for example, you'll find over 20 expressions containing the focus words *eye*, *mouth*, and *nose* and over 50 containing the word *face*. No "phrase book" on the market includes as many idioms, proverbs, and common expressions as *The Expressionary*.
